Control panels

Panneau de commande à afficheur pour un ou deux opérateurs électromécaniques de 24 V pour portes de garage basculantes de 230 V/200 W.
Le récepteur radio bicanal est inclus.
Dispose d'un système anti-écrasement basé sur la technologie D-track qui gère le ralentissement de l'ouverture et de la fermeture et dispose d'une fonction d'auto-apprentissage électronique.
Les fonctions principales permettent la refermeture automatique, la fermeture rapide, le blocage des impulsions et le maintien du blocage.
Compatible avec les protocoles U-LINK et EELINK.

Caractéristiques importantes

Les borniers sont colorés et extractibles afin de faciliter les opérations de câblage.
